

# FLASHBACK

## DEMOSCENE EVENT 2019

Get ready.

We are back!!!

FLASHBACK 2019 Demo Event

Sydney, Australia – June 8-10 long week end!

The premier Australian event is back to shake your calendar!

Flashback 2019 is rapidly approaching, clear your calendar, get registered and if you are up to the task; get working on a production for the event! We are the definitive multiplatform computer event down under For C64, Amiga, PC, Atari, Amstrad, Spectrum, Raspberry Pi, homebrew hardware and everything else in-between!

Register for a weekend of oldscool and modern hardware and software entertainment – we will have a full computer museum available (all the classics set up such as C64, C128D, C64SX, Amiga 500/1200/2000, Vectrex, Atari 2600, NES, etc. got some old disks and want to sit down and play? go for it!).

Flashback dims the lights on Saturday night for incredible live chip tune performances by special guests (!), prepare to be entertained! (more to be announced shortly!)

Demo competitions will be spread across Saturday night with the main competitions on Sunday and remote entries are also open to all! You get to see peoples creativity on the big screen with cinematic sound in the areas; Programming, Graphics, Music, game development, Animation and wild entries.

*Scenesat* **AMIGA**

We welcome everyone to the event whether you want to come and chill at the event or participate in the competitions. Your competition entries do not have to be created at the event, you can submit your pride that you have always wanted to release but never had the chance too. If you cannot make it to the party, we will accept remote entries! If you have your favourite programming effects on an old or new computer platform, graphics or music then here is your chance to show it off.

This year we have kicked off an annual event with the Amiga 500 dedicated compo. We pay homage to the platform where new ideas were formed, where competition smashed limitations... We want to bring that back. Only Amiga makes it possible...

Dedicated Amiga 500 compo (Kickstart 1.3, 50hz Agnus takes control) No AGA (512KB expansion allowed)

All productions accepted (demo, invite, etc!) - this includes remote entries!

Where:

Vandal, 16-30 Vine St, Redfern Sydney.

When: Saturday June 8th - Monday June 10th. Doors open 12noon on Saturday - this will be a non-stop event until Monday.
